

## Floodplain Ecology – Soils Worksheet

| Soil          | Soil 1 | Soil 2 | Soil 3 | Soil 4 |
|---------------|--------|--------|--------|--------|
| Colour        |        |        |        |        |
| Mottles       |        |        |        |        |
| Field texture |        |        |        |        |
| Slaking       |        |        |        |        |
| Dispersion    |        |        |        |        |
| pH            |        |        |        |        |

| From your observations (above) and what you have learnt, fill in the details below |  |  |  |  |
|--|--|--|--|--|
| Water holding  |  |  |  |  |
| Internal drainage  |  |  |  |  |
| Position in landscape  |  |  |  |  |
| Soil group   |  |  |  |  |
| Vegetation   |  |  |  |  |
